**Date:** March 11, 2013

---

Exchange-Traded Fund	Symbol	CUSIP #
First Trust RBA American Industrial Renaissance ETF	AIRR	33738R704
First Trust RBA Quality Income ETF	QINC	33738R803

### Background Information on the Funds

The First Trust Exchange-Traded Fund VI (the "Trust") is a management investment company registered under the Investment Company Act of 1940, as amended (the "1940 Act"). The Trust consists of separate exchange-traded funds (each, a "Fund" and collectively, the "Funds"). This circular refers only to the Funds listed above. The shares of the Funds are referred to herein as "Shares." First Trust Advisors L.P. ("First Trust" or the "Advisor") serves as the investment advisor for the Funds.

AIRR seeks investment results that correspond generally to the price and yield (before the Fund's fees and expenses) of an index called the Richard Bernstein Advisors American Industrial Renaissance Index (the "Index").

The Fund will normally invest at least 90% of its net assets (plus the amount of any borrowings for investment purposes) in U.S. equity securities that comprise the Index. The Index is designed to measure the performance of small and mid-cap U.S. companies in the industrial and community banking sectors.

The Fund, using an indexing investment approach, attempts to replicate, before fees and expenses, the performance of the Index. The Advisor seeks a correlation of 0.95 or better (before fees and expenses) between the Fund's performance and the performance of the Index; a figure of 1.00 would represent perfect correlation. First Trust will regularly monitor the Fund's tracking accuracy and will seek to maintain an appropriate correlation.

The Index is owned and was developed by Richard Bernstein Advisors LLC ("RBA" or the "Index Provider"). The Index Provider has retained the New York Stock Exchange ("NYSE") to calculate and maintain the Index. The Index is designed to measure the performance of small and mid-cap U.S. companies in the industrial and community banking sectors. The Index will RBA believes there is increasing reason to expect that the United States may regain industrial market share, based on a number of factors,

including: access to cheap energy sources; the relative stability of the U.S. market compared to many emerging markets; and growing availability of bank financing for manufacturers.

The Index Provider constructs the Index by utilizing the following screens:

1. Start with a universe of small and mid-cap securities of the Russell 2500 Index constituents, excluding over-the-counter traded securities.
2. Include securities from only the following Global Industry Classification Standard ("GICS") industries: (a) Commercial Services & Supplies; (b) Construction & Engineering; (c) Electrical Equipment; and (d) Machinery. Non-industrial service companies, such as parking services, restaurant cleaning services, are excluded.
3. Include securities from the financial sector as classified by GICS that meet the following criteria: (a) a member of the Commercial Bank GICS industry; (b) have a business focus on regional commercial lending; and (c) domiciled in traditional mid-western manufacturing states, such as Pennsylvania, Wisconsin, Michigan, Ohio, Illinois, Indiana and Iowa.
4. The companies included in the Index must have non-U.S. sales of less than 25%, which ensures that the majority of a company's revenues are derived from the United States.
5. The securities included in the Index must be of companies that have a positive median 12-months forward earnings consensus estimate.

The Index Provider evaluates the Index components quarterly in April, July, October and January of each year for eligibility, using market data through the end of March, June, September and December, respectively. The Index is rebalanced quarterly. Rebalancing is effective as of the market close of the third Friday in April, July, October and January. The reference dates for the data used in the rebalancing are at the close of trading on the last trading day in March, June, September and December, respectively. As of February 19, 2014, the Index was comprised of 58 securities. The Fund will principally invest in industrial and financial companies.

The Fund intends to invest entirely in securities included in the Index and maintain a correlation of 0.95 or better (before fees and expenses) between the Fund's performance and the performance of the Index; however, there may also be instances in which the Fund may be underweighted or overweighted in certain securities in the Index, not invest in certain securities included in the Index, purchase securities not in the Index that are appropriate to substitute for certain securities in the Index or utilize various combinations of the above techniques in seeking to track the Index.

QINC seeks investment results that correspond generally to the price and yield (before the Fund's fees and expenses) of an index called the Richard Bernstein Advisors Quality Income Index (the "RBA Index").

The Fund will normally invest at least 90% of its net assets (plus the amount of any borrowings for investment purposes) in U.S. and non-U.S., including emerging market, equity securities that comprise the RBA Index. The non-U.S. equity securities may include American Depositary Receipts ("ADRs"), Global Depositary Receipts ("GDRs") or

other depositary receipts (collectively, the "Depositary Receipts"). The Index is designed to provide access to a diversified portfolio of small, mid and large capitalization income producing equity securities.

The Advisor seeks a correlation of 0.95 or better (before fees and expenses) between the Fund's performance and the performance of the RBA Index; a figure of 1.00 would represent perfect correlation. First Trust will regularly monitor the Fund's tracking accuracy and will seek to maintain an appropriate correlation.

The RBA Index is owned and was developed by RBA. The Index Provider has retained the NYSE to calculate and maintain the Index. The RBA Index is focused on total return through a combination of dividend income and capital appreciation. The RBA Index attempts to control the risks associated with investing in higher-yielding stocks, yet maintain attractive current income. RBA believes that risk increases as dividend yield increases, and that simply investing in high-yield equities often leads to selecting stocks whose dividends are subsequently cut or discontinued. The RBA Index seeks to minimize the probability of dividend cuts and the related underperformance.

The Index Provider constructs the RBA Index by utilizing the following screens:

1. Start with a universe of U.S. exchange-traded equities including Depositary Receipts, but excluding over-the-counter traded securities.
2. Exclude preferred securities, master limited partnerships (MLPs) and mortgage real estate investment trusts (REITs).
3. The securities included in the RBA Index must be of companies that have an Indicated Dividend Yield (Bloomberg) greater than the MSCI All Country World Index actual trailing dividend yield.
4. The securities included in the RBA Index must be of companies that have an indicated dividend yield, as calculated by Bloomberg, of less than 50%.
5. Remove the securities that are in the top decile of indicated dividend yield, as calculated by Bloomberg.
6. The securities included in the RBA Index must be of companies that have a Total Debt/Total Equity that is less than Actual Total Debt/Total Equity for the MSCI All Country World Index.
7. The securities included in the RBA Index must have earnings per share (EPS) growth variability less than that of the MSCI All Country World Index.
8. Exclude companies with negative trailing year over year EPS growth.

The Index Provider evaluates the RBA Index components quarterly in April, July, October and January of each year for eligibility, using market data through the end of March, June, September and December, respectively. The Index is rebalanced quarterly. Rebalancing is effective as of the market close of the third Friday in April, July, October and January. The reference dates for the data used in the rebalancing are at the close of trading on the last trading day in March, June, September and December, respectively. As of February 19, 2014, the RBA Index was comprised of 52 securities.

The Fund intends to invest entirely in securities included in the RBA Index and maintain a correlation of 0.95 or better (before fees and expenses) between the Fund's performance and the performance of the RBA Index; however, there may also be instances in which the Fund may be underweighted or overweighted in certain securities in the RBA Index, not invest in certain securities included in the RBA Index, purchase securities not in the RBA Index that are appropriate to substitute for certain securities in the RBA Index or utilize various combinations of the above techniques in seeking to track the RBA Index.

For more information regarding the Funds' investment strategy, please read the prospectus for the Funds.

As described more fully in the Trust's prospectus and Statement of Additional Information ("SAI"), the Funds issue and redeem Shares at net asset value ("NAV") only in large blocks of 50,000 Shares (each block of Shares called a "Creation Unit") or multiples thereof. As a practical matter, only broker-dealers or large institutional investors with creation and redemption agreements (called Authorized Participants) can purchase or redeem these Creation Units. Except when aggregated in Creation Units, the Shares may not be redeemed with the Funds.

Shares are held in book-entry form, which means that no Share certificates are issued. The Depository Trust Company or its nominee is the record owner of all outstanding Shares of the Funds and is recognized as the owner of all Shares for all purposes.

The NAV per Share for each Fund is computed by dividing the value of the net assets of the Fund (i.e., the value of its total assets less total liabilities) by the total number of Shares outstanding. Expenses and fees are accrued daily and taken into account for purposes of determining NAV. The NAV of each Fund is determined each business day after the close of trading (ordinarily 4:00 p.m., Eastern Time or "ET") of the New York Stock Exchange. Any assets or liabilities denominated in currencies other than the U.S. dollar are converted into U.S. dollars at the current market rates on the date of valuation as quoted by one or more sources.

The registration statement for the Funds describes the various fees and expenses for the Funds' Shares. For a more complete description of the Funds and the underlying indexes, visit the Funds' website at [www.ftportfolios.com](http://www.ftportfolios.com).

## **Purchases and Redemptions in Creation Unit Size**

BX members and PHLX members and member organizations are hereby informed that procedures for purchases and redemptions of Shares in Creation Unit Size are described in the Trust's prospectus and Statement of Additional Information and that Shares are not individually redeemable but are redeemable only in Creation Unit Size aggregations or multiples thereof.

## **Principal Risks**

Interested persons are referred to the discussion in the prospectus for the Funds of the principal risks of an investment in the Funds. These include tracking error risk (factors causing a Fund's performance to not match the performance of its underlying index), market trading risk (for example, trading halts, trading above or below net asset value), investment style risk, sector risk, investment approach risk, non-diversification risk, issuer-specific risk, management risk, bank securities risk and foreign securities risk.

## Exchange Rules Applicable to Trading in the Shares

Trading of the Shares on BX is on a UTP basis and is subject to BX equity trading rules. Trading of the Shares on PHLX's PSX system is on a UTP basis and is subject to PHLX rules.

## Trading Hours

The values of each index underlying the Shares are disseminated to data vendors every 15 seconds. The Shares will trade on BX between 8:00 a.m. and 7:00 p.m. ET. The Shares will trade on PSX between 9:00 a.m. and 5:00 p.m. ET. For trading during each market's pre-market and post-market sessions, market participants should note that additional risks may exist with respect to trading the Funds during these sessions, when the underlying index's values, intraday indicative value, or similar value may not be disseminated or calculated.

## Dissemination of Fund Data

The Consolidated Tape Association will disseminate real time trade and quote information for the Funds to Tape C.

<b>Fund Name</b>	<b>Listing Market</b>	<b>Trading Symbol</b>	<b>IOPV Symbol</b>	<b>NAV Symbol</b>
First Trust RBA American Industrial Renaissance ETF	NASDAQ	AIRR	AIRR.IV	AIRR.NV
First Trust RBA Quality Income ETF	NASDAQ	QINC	QINC.IV	QINC.NV

## Suitability

Trading in the Shares on BX will be subject to the provisions of BX Equity Rule 2310. Shares trading on PSX will be subject to the provisions of PHLX Rule 763. Members and member organizations recommending transactions in the Shares to customers should make a determination that the recommendation is suitable for the customer. In addition, members must possess sufficient information to satisfy the "know your customer" obligation that is embedded in the BX Conduct Rules.

BX members and PHLX members and member organizations should also review NASD Notice to Members 03-71 for guidance on trading these products. The Notice reminds members of their obligations to: (1) conduct adequate due diligence to understand the features of the product; (2) perform a reasonable-basis suitability analysis; (3) perform customer-specific suitability analysis in connection with any recommended transactions; (4) provide a balanced disclosure of both the risks and rewards associated with the particular product, especially when selling to retail investors; (5) implement appropriate internal controls; and (6) train registered persons regarding the features, risk and suitability of these products.

## Trading Halts

BX will halt trading in the Shares of a Fund in accordance with BX Equity Rule 4120. PHLX will halt trading in the Shares of a Fund in accordance with PHLX Rule 3100. The grounds for a halt under these rules include a halt by the primary market because the intraday indicative value of the Fund, the value of its underlying index, or a similar value are not being disseminated as required, or a halt for other regulatory reasons. In addition, BX and PHLX will also stop trading the Shares of a Fund if the primary market delists the Fund.

## Delivery of a Prospectus

BX members and PHLX members and member organizations should be mindful of applicable prospectus delivery requirements under the federal securities laws with respect to transactions in the Funds.

Prospectuses may be obtained through the Funds' website. The prospectus for the Funds does not contain all of the information set forth in the Funds' registration statement (including the exhibits to the registration statement), parts of which have been omitted in accordance with the rules and regulations of the Securities and Exchange Commission ("SEC"). For further information about the Funds, please refer to the registration statement.

In the event that the Funds rely upon an order by the SEC exempting the Shares from certain prospectus delivery requirements under Section 24(d) of the 1940 Act and in the future make available a written product description, BX Equity Rules 4420 and 4421 and PHLX Rule 803 require that members and member organizations, respectively, provide to all purchasers of Shares a written description of the terms and characteristics of such securities, in a form prepared by the Trust for the Funds, no later than the time a confirmation of the first transaction in the Shares is delivered to such purchaser. In addition, members and member organizations shall include such a written description with any sales material relating to the Shares that is provided to customers or the public. Any other written materials provided by members or member organizations to customers or the public making specific reference to the Shares as an investment vehicle must include a statement in substantially the following form: "A circular describing the terms and characteristics of the Shares of the Fund has been prepared by the Trust and is available from your broker. It is recommended that you obtain and review such circular before purchasing Shares of the Fund. In addition, upon request you may obtain from your broker a prospectus for Shares of the Fund."

Any BX or PHLX member or member organization carrying an omnibus account for a non-member broker-dealer is required to inform such non-member that execution of an order to purchase Shares for such omnibus account will be deemed to constitute agreement by the non-member to make such written description available to its customers on the same terms as are directly applicable to BX members and PHLX members or member organizations under this rule.

Upon request of a customer, BX members and PHLX members or member organizations shall provide a copy of the prospectus.

## **Exemptive, Interpretive and No-Action Relief Under Federal Securities Regulations**

The SEC has issued exemptive, interpretive or no-action relief from certain provisions of rules under the Securities Exchange Act of 1934 (the "Act") regarding trading in the above mentioned exchange-traded Funds.

### **Regulation M Exemptions**

Generally, Rules 101 and 102 of Regulation M prohibit any "distribution participant" and its "affiliated purchasers" from bidding for, purchasing, or attempting to induce any person to bid for or purchase any security which is the subject of a distribution until after the applicable restricted period, except as specifically permitted in Regulation M. The provisions of the Rules apply to underwriters, prospective underwriters, brokers, dealers, and other persons who have agreed to participate or are participating in a distribution of securities.

The SEC has granted an exemption from Rule 101 under Regulation M to permit persons participating in a distribution of shares of the above-mentioned Funds to engage in secondary market transactions in such shares during their participation in such a distribution. In addition, the SEC has granted relief under Regulation M to permit persons who may be deemed to be participating in the distribution of Shares of the above-mentioned Funds (i) to purchase securities for the purpose of purchasing Creation Unit Aggregations of Fund Shares and (ii) to tender securities for redemption in Creation Unit Aggregations. Further, the SEC has clarified that the tender of Fund Shares to the Funds for redemption does not constitute a bid for or purchase of any of the Funds' securities during the restricted period of Rule 101. The SEC has also granted an exemption pursuant to paragraph (e) of Rule 102 under Regulation M to allow the redemption of Fund Shares in Creation Unit Aggregations during the continuous offering of Shares.

### **Customer Confirmations for Creation or Redemption of Fund Shares (SEC Rule 10b-10)**

Broker-dealers who handle purchases or redemptions of Fund Shares in Creation Unit size for customers will be permitted to provide such customers with a statement of the number of Creation Unit Aggregations created or redeemed without providing a statement of the identity, number and price of shares of the individual securities tendered to a Fund for purposes of purchasing Creation Unit Aggregations ("Deposit Securities") or the identity, number and price of shares to be delivered by the Trust for the Fund to the redeeming holder ("Redemption Securities"). The composition of the securities required to be tendered to the Fund for creation purposes and of the securities to be delivered on redemption will be disseminated each business day and will be applicable to requests for creations or redemption, as the case may be, on that day. This exemptive relief under Rule 10b-10 with respect to creations and redemptions is subject to the following conditions:

- 1) Confirmations to customers engaging in creations or redemptions must state that all information required by Rule 10b-10 will be provided upon request;
- 2) Any such request by a customer for information required by Rule 10b-10 will be filed in a timely manner, in accordance with Rule 10b-10(c);

- 3) Except for the identity, number and price of shares of the component securities of the Deposit Securities and Redemption Securities, as described above, confirmations to customers must disclose all other information required by Rule 10b-10(a).

### **SEC Rule 14e-5**

An exemption from Rule 14e-5 has been granted to permit any person acting as a dealer-manager of a tender offer for a component security of a Fund (1) to redeem Fund Shares in Creation Unit Aggregations from the issuer that may include a security subject to such tender offer and (2) to purchase Fund Shares during such tender offer. In addition, a no-action position has been taken under Rule 14e-5 if a broker-dealer acting as a dealer-manager of a tender offer for a security of a Fund purchases or arranges to purchase such securities in the secondary market for the purpose of tendering such securities to purchase one or more Creation Unit Aggregations of Shares, if made in conformance with the following:

- 1) such bids or purchases are effected in the ordinary course of business, in connection with a basket of 20 or more securities in which any security that is the subject of a distribution, or any reference security, does not comprise more than 5% of the value of the basket purchased; or
- 2) purchases are effected as adjustments to such basket in the ordinary course of business as a result of a change in the composition of the underlying index; and
- 3) such bids or purchases are not effected for the purpose of facilitating such tender offer.

### **Section 11(d)(1); SEC Rules 11d1-1 and 11d1-2**

Section 11(d)(1) of the Act generally prohibits a person who is both a broker and a dealer from effecting any transaction in which the broker-dealer extends credit to a customer on any security which was part of a new issue in the distribution of which he participated as a member of a selling syndicate or group within thirty days prior to such transaction. The SEC has clarified that Section 11(d)(1) does not apply to broker-dealers that are not Authorized Participants (and, therefore, do not create Creation Unit Aggregations) that engage in both proprietary and customer transactions in Shares of the Fund in the secondary market, and for broker-dealer Authorized Participants that engage in creations of Creation Unit Aggregations. This relief is subject to specific conditions, including the condition that such broker-dealer (whether or not an Authorized Participant) does not, directly or indirectly, receive from the fund complex any payment, compensation or other economic incentive to promote or sell the Shares of a Fund to persons outside the fund complex, other than non-cash compensation permitted under NASD Rule 2830(I)(5)(A), (B) or (C). (See [letter](#) from Catherine McGuire, Chief Counsel, SEC Division of Market Regulation, to Securities Industry Association, Derivative Products Committee, dated November 21, 2005.) The SEC also has taken a no-action position under Section 11(d)(1) of the Act that broker-dealers may treat Shares of a Fund, for purposes of Rule 11d1-2, as "securities issued by a registered open-end investment company as defined in the Investment Company Act" and thereby extend credit or maintain or arrange for the extension or maintenance of credit on Shares that have been owned by the persons to whom credit is provided for more than 30 days, in reliance on the exemption contained in the rule.

## **SEC Rule 15c1-5 and 15c1-6**

The SEC has taken a no-action position with respect to Rule 15c1-5 and Rule 15c1-6 as to the required disclosure of control by a broker or dealer with respect to creations and redemptions of Fund Shares and secondary market transactions therein. (See [letter](#) from Catherine McGuire, Chief Counsel, SEC Division of Market Regulation, to Securities Industry Association, Derivative Products Committee, dated November 21, 2005.)

**This Information Circular is not a statutory prospectus. BX members and PHLX members and member organizations should consult the Funds' prospectus and/or the Funds' website for relevant information.**
