BACKGROUND INFORMATION ON THE FUND

The Krane Shares Trust (the “Trust”) is a management investment company registered under the Investment Company Act of 1940, as amended (the “1940 Act”), consisting of several investment portfolios. This circular relates only to the KraneShares CCBS China Corporate High Yield Bond USD Index ETF (the “Fund”). The shares of the Fund are referred to herein as “Shares.” Krane Funds Advisors, LLC (the “Adviser”) serves as the investment adviser to the Fund.

The Fund seeks to provide investment results that, before fees and expenses, track the price and yield performance of a specific fixed income securities index. The Fund’s current index is the Solactive USD China Corporate High Yield Bond Index (the “Underlying Index”).

Under normal circumstances, the Fund will invest at least 80% of its total assets in components of the Underlying Index (“80% policy”) and to-be-announced transactions representing such components. The Underlying Index seeks to track the performance of outstanding high yield debt securities denominated in U.S. dollars issued by Chinese companies. For purposes of the Underlying Index, Chinese companies include companies that conduct the majority of their major business activities in, are headquartered in or have the majority of their business assets, profits, or revenues in China or Hong Kong as determined by the index provider, Solactive, AG (“Index Provider”).

Securities included in the Underlying Index are available for investment through the U.S. dollar-denominated bond market and may be primarily traded in different markets around the world, including Asia and the United States. The securities eligible for inclusion in the Underlying Index include fixed interest rate securities, fixed-to-float and fixed-to-variable securities with one year or more until their conversion, pay-in-kind securities, and step-up-coupon securities. The Underlying Index is weighted according to the market value of the outstanding debt qualified for inclusion in the Underlying Index, except that it limits, as of each rebalance: (1) issuers engaged in the same economic sector from representing more than 40% of the Underlying Index; and (2) after applying

the sector limit, the weight of any single issuer's securities from exceeding 5% of the Underlying Index.

The issues that are eligible for inclusion in the Underlying Index, as of each rebalance, include those that are: (1) at least 40 days old; (2) have two to five years remaining until maturity or no maturity date; (3) are unrated by Fitch Ratings, Ltd. ("Fitch") or Moody's Investors Service, Inc. ("Moody's") or have at least one rating by Fitch or Moody's that is equal or lower to BBB- or Baa3; (4) have not defaulted; (5) have a par value of at least \$300 million; and (6) are issued by issuers with outstanding public debt securities with a value of at least \$1 billion. The security with the highest yield to maturity will be included in the Underlying Index for issuers with more than one security eligible for inclusion in the Underlying Index or, if they have the same yield to maturity, the security with the highest amount outstanding will be included in the Underlying Index.

The Fund may invest up to 20% of its assets in instruments that are not included in the Underlying Index, but that the Fund's subadviser, CCB Securities, Ltd. ("CCBS") believes will help the Fund track its Underlying Index. These instruments include debt securities not included in the Underlying Index, such as government and quasi-sovereign debt securities, on-shore renminbi ("RMB") debt securities eligible for investment through either a People's Bank of China program that permits foreign investors to invest in RMB-denominated debt securities ("RMB Bonds") in the Chinese Interbank Bond Market ("CIBM Program") or through a Renminbi Qualified Foreign Institutional Investor ("RQFII") or Qualified Foreign Institutional Investor ("QFII") license, and other foreign currency-denominated debt securities. These instruments may also include derivatives (including swaps, futures, structured notes and options), equity securities and cash and cash equivalents. To the extent the Fund invests in RMB Bonds, it expects to do so through the CIBM Program but Krane or CCBS may choose to apply for a RQFII or QFII license in the future.

The Fund may invest up to 10% of its net assets in shares of investment companies, such as ETFs, unit investment trusts, closed-end investment companies and foreign investment companies (provided that it does not own more than 3% of, or invest more than 5% of its assets in, any one company), including to gain exposure to component securities of the Fund's Underlying Index or when such investments present a more cost efficient alternative to investing directly in the securities. Foreign investment companies in which the Fund may invest include RMB-denominated short-term bond funds domiciled in the PRC ("PRC Investment Companies"). The Fund may also hold cash in a deposit account in China or invest in U.S. money market funds or other U.S. cash equivalents. The other investment companies in which the Fund may invest may be advised, sponsored or otherwise serviced by Krane, CCBS and/or their affiliates.

Although the Fund reserves the right to use a replication strategy, the Fund expects to use representative sampling to track the Underlying Index. "Representative sampling" is a strategy that involves investing in a representative sample of securities that collectively have an investment profile similar to the Underlying Index.

As of December 10, 2017, the Underlying Index included 65 issues. As of December 10, 2017, the credit ratings for the rated components in the Underlying Index ranged from BBB to CC, as determined by Fitch or Moody's or were unrated. The Underlying Index is rebalanced quarterly. The Underlying Index is provided by the Index Provider. The Index Provider is independent of the Fund, Krane and CCBS.

The Fund may engage in securities lending.

The Fund is non-diversified. To the extent the Underlying Index is concentrated in a particular industry, the Fund is expected to be concentrated in that industry. As of December 10, 2017, issuers in the financials sector (69.13%) represented a significant portion of the Underlying Index.

Please read the Fund's prospectus for more information regarding its investment objectives.

As described more fully in the Trust's prospectus and Statement of Additional Information, the Fund will issue and redeem Shares on a continuous basis at their net asset value ("NAV") only in large blocks of 50,000 Shares (each, a "Creation Unit"). Creation Units will be issued and redeemed principally in-kind for securities included in the underlying index. Except when aggregated in Creation Units, the Shares may not be redeemed with the Fund.

Shares are held in book-entry form, which means that no Share certificates are issued. The Depository Trust Company or its nominee is the record owner of all outstanding Shares of the Funds and is recognized as the owner of all Shares for all purposes.

The NAV per Share for the Fund is computed by dividing the value of the net assets of the Fund (i.e., the value of its total assets less total liabilities) by the total number of Shares outstanding. Expenses and fees are accrued daily and taken into account for purposes of determining NAV. The NAV of each Fund is determined each business day after the close of trading (ordinarily 4:00 p.m., Eastern Time or "ET") of the New York Stock Exchange. Any assets or liabilities denominated in currencies other than the U.S. dollar are converted into U.S. dollars at the current market rates on the date of valuation as quoted by one or more sources.

The registration statement for the Fund describes the various fees and expenses for the Fund's Shares. For a more complete description of the Fund and the underlying Index, visit the Fund's website at www.kraneshares.com.

EXEMPTIVE, INTERPRETIVE AND NO-ACTION RELIEF UNDER FEDERAL SECURITIES REGULATIONS

The SEC has issued exemptive, interpretive or no-action relief from certain provisions of rules under the Securities Exchange Act of 1934 (the “Act”) regarding trading in the above mentioned exchange-traded Fund.

REGULATION M EXEMPTIONS

Generally, Rules 101 and 102 of Regulation M prohibit any “distribution participant” and its “affiliated purchasers” from bidding for, purchasing, or attempting to induce any person to bid for or purchase any security which is the subject of a distribution until after the applicable restricted period, except as specifically permitted in Regulation M. The provisions of the Rules apply to underwriters, prospective underwriters, brokers, dealers, and other persons who have agreed to participate or are participating in a distribution of securities.

The SEC has granted an exemption from Rule 101 under Regulation M to permit persons participating in a distribution of shares of the above-mentioned Fund to engage in secondary market transactions in such shares during their participation in such a distribution. In addition, the SEC has granted relief under Regulation M to permit persons who may be deemed to be participating in the distribution of Shares of the above-mentioned Fund (i) to purchase securities for the purpose of purchasing Creation Unit Aggregations of Fund Shares and (ii) to tender securities for redemption in Creation Unit Aggregations. Further, the SEC has clarified that the tender of Fund Shares to the Fund for redemption does not constitute a bid for or purchase of any of the Fund’s securities during the restricted period of Rule 101. The SEC has also granted an exemption pursuant to paragraph (e) of Rule 102 under Regulation M to allow the redemption of Fund Shares in Creation Unit Aggregations during the continuous offering of Shares.

CUSTOMER CONFIRMATIONS FOR CREATION OR REDEMPTION OF FUND SHARES (SEC RULE 10B-10)

Broker-dealers who handle purchases or redemptions of Fund Shares in Creation Unit size for customers will be permitted to provide such customers with a statement of the number of Creation Unit Aggregations created or redeemed without providing a statement of the identity, number and price of shares of the individual securities tendered to the Fund for purposes of purchasing Creation Unit Aggregations (“Deposit Securities”) or the identity, number and price of shares to be delivered by the Trust for the Fund to the redeeming holder (“Redemption Securities”). The composition of the securities required to be tendered to the Fund for creation purposes and of the securities to be delivered on redemption will be disseminated each business day and will be applicable to requests

for creations or redemption, as the case may be, on that day. This exemptive relief under Rule 10b-10 with respect to creations and redemptions is subject to the following conditions:

- 1) Confirmations to customers engaging in creations or redemptions must state that all information required by Rule 10b-10 will be provided upon request;
- 2) Any such request by a customer for information required by Rule 10b-10 will be filed in a timely manner, in accordance with Rule 10b-10(c);
- 3) Except for the identity, number and price of shares of the component securities of the Deposit Securities and Redemption Securities, as described above, confirmations to customers must disclose all other information required by Rule 10b-10(a).

SEC RULE 14E-5

An exemption from Rule 14e-5 has been granted to permit any person acting as a dealer-manager of a tender offer for a component security of the Fund (1) to redeem Fund Shares in Creation Unit Aggregations from the issuer that may include a security subject to such tender offer and (2) to purchase Fund Shares during such tender offer. In addition, a no-action position has been taken under Rule 14e-5 if a broker-dealer acting as a dealer-manager of a tender offer for a security of the Fund purchases or arranges to purchase such securities in the secondary market for the purpose of tendering such securities to purchase one or more Creation Unit Aggregations of Shares, if made in conformance with the following:

- 1) such bids or purchases are effected in the ordinary course of business, in connection with a basket of 20 or more securities in which any security that is the subject of a distribution, or any reference security, does not comprise more than 5% of the value of the basket purchased; or
- 2) purchases are effected as adjustments to such basket in the ordinary course of business as a result of a change in the composition of the underlying index; and
- 3) such bids or purchases are not effected for the purpose of facilitating such tender offer.

SECTION 11(D)(1); SEC RULES 11D1-1 AND 11D1-2

Section 11(d)(1) of the Act generally prohibits a person who is both a broker and a dealer from effecting any transaction in which the broker-dealer extends credit to a customer on any security which was part of a new issue in the distribution of which he participated as a member of a selling syndicate or group within thirty days prior to such transaction. The SEC has clarified that Section 11(d)(1) does not apply to broker-dealers that are not Authorized Participants (and, therefore, do not create Creation Unit Aggregations) that engage in both proprietary and customer transactions in Shares of the Fund in the secondary market, and for broker-dealer Authorized Participants that engage in creations of Creation Unit Aggregations. This relief is subject to specific conditions, including the condition that such broker-dealer (whether or not an Authorized Participant) does not, directly or indirectly, receive from the fund complex any payment, compensation or other economic incentive to promote or sell the Shares of the Fund to persons outside the fund complex, other than non-cash compensation permitted under NASD Rule 2830(l)(5)(A), (B) or (C). (See [letter](#) from Catherine McGuire, Chief Counsel, SEC Division of Market Regulation, to Securities Industry

Association, Derivative Products Committee, dated November 21, 2005.) The SEC also has taken a no-action position under Section 11(d)(1) of the Act that broker-dealers may treat Shares of the Fund, for purposes of Rule 11d1-2, as "securities issued by a registered open-end investment company as defined in the Investment Company Act" and thereby extend credit or maintain or arrange for the extension or maintenance of credit on Shares that have been owned by the persons to whom credit is provided for more than 30 days, in reliance on the exemption contained in the rule.

SEC RULE 15C1-5 AND 15C1-6

The SEC has taken a no-action position with respect to Rule 15c1-5 and Rule 15c1-6 as to the required disclosure of control by a broker or dealer with respect to creations and redemptions of Fund Shares and secondary market transactions therein. (See [letter](#) from Catherine McGuire, Chief Counsel, SEC Division of Market Regulation, to Securities Industry Association, Derivative Products Committee, dated November 21, 2005.)
