From: PHLX Listing Qualifications Department

Index-Linked Notes	Symbol	CUSIP Number
UBS AG Exchange Traded Access Securities Linked to The Alerian MLP Infrastructure Index	MLPI	902641646

Information on the Notes

UBS AG (the "Issuer") has issued Exchange Traded Access Securities ("E-TRACS" or "Notes") linked to the Alerian MLP Infrastructure Index (the "Index"). The Notes were priced at \$25 each and mature on April 2, 2040.

The E-TRACS are senior unsecured debt securities that provide exposure to potential price appreciation in the Index, subject to an Accrued Tracking Fee (as described in the prospectus) based on a Quarterly Tracking Fee of 0.2125% (equivalent to 0.85% per annum). Investing in the Notes involves significant risks. Investors may lose some or all of their principal at maturity, early redemption or upon exercise by the Issuer of its call right if the level of the Index as measured by the VWAP Level (calculated as described in the prospectus) declines or does not increase by an amount sufficient to offset the Accrued Tracking Fee and the Redemption Fee Amount, if applicable. The Notes may pay a quarterly coupon during their term. Investors will receive a cash payment at maturity or upon exercise by the Issuer of its call right, based on the performance of the Index less the Accrued Tracking Fee, as described in the prospectus. Investors will receive a cash payment upon early redemption based on the performance of the Index less the Accrued Tracking Fee and the Redemption Fee amount. Payment at maturity or upon early redemption is subject to the creditworthiness of the Issuer. In addition, the actual and perceived creditworthiness of the Issuer will affect the market value, if any, of the Notes prior to maturity, call or early redemption.

The Coupon Amount will equal the sum of the cash distributions that a hypothetical holder of Index constituents would have been entitled to receive in respect of the Index constituents during the relevant period, reduced by the Accrued Tracking Fee.

For each Note, unless earlier redeemed or called, investors will receive at maturity a cash payment equal to (a) the product of (i) the Principal Amount and (ii) the Index Performance Ratio as of the last Index Business Day in the Final Measurement Period plus (b) the final Coupon Amount minus (c) the Accrued Tracking Fee as of the last Index Business Day in the Final Measurement Period, plus (d) the Stub Reference Distribution Amount as of the last Index Business Day in the Final Measurement Period, if any. This cash payment is referred to as the "Cash Settlement Amount." If the amount so calculated is less than zero, the payment at maturity will be zero.

Index Performance Ratio: Final VWAP Level / Initial VWAP Level

The Initial VWAP Level will be 487.420. The Final VWAP Level will be determined by the VWAP Calculation Agent, as the arithmetic mean of the VWAP Levels measured on each Index Business Day during the Final Measurement Period or the Call Measurement Period, or on any Redemption Measurement Date, as applicable.

Please see the prospectus for the Notes for more details regarding the calculations and details regarding the Index.

It is expected that the market value of the Notes will depend substantially on the value of the Index and may be affected by a number of other interrelated factors including, among other things: the general level of interest rates, the volatility of the Index, the time remaining to maturity, the dividend yield of the stocks comprising the Index, and the credit ratings of the Issuer.

Trading in the Notes on PHLX's PSX system is on a UTP basis and is subject to PHLX rules. The Notes will trade on PSX from 9:00 a.m. until 5:00 p.m. Eastern Time. For trading during PSX's Pre-Market and Post-Market Sessions, market participants should note that additional risks may exist with respect to trading the Notes during these sessions, when the underlying index's value or similar value may not be disseminated.

PHLX will halt trading in the Notes in accordance with PHLX Rule 3100. The grounds for a halt under these rules include a halt by the primary market because the value of the underlying index or a similar value is not being disseminated as required, or a halt for other regulatory reasons. In addition, PHLX will also stop trading the Shares Notes if the primary market delists the Notes.

Members and member organizations recommending transactions in the Notes to customers should make a determination that the securities are suitable for the customer, as provided by PHLX Rule 763.

PSX members and member organizations also should review NASD Notice to Members 03-71 for guidance on trading these products. The Notice reminds broker-dealers of their obligations to: (1) conduct adequate due diligence to understand the features of the product; (2) perform a reasonable-basis suitability analysis; (3) perform customer-specific suitability analysis in connection with any recommended transactions; (4) provide a balanced disclosure of both the risks and rewards associated with the particular product, especially when selling to retail investors; (5) implement appropriate internal controls; and (6) train registered persons regarding the features, risk and suitability of these products.

This Information Circular is not a statutory prospectus. PHLX members and member organizations should consult the registration statement or prospectus for the Notes for additional information.
