EXCHANGE-TRADED FUND

Invesco BulletShares 2026 High Yield Corporate Bond ETF
Invesco BulletShares 2028 Corporate Bond ETF

SYMBOL CUSIP

BSJQ 46138J635
BSCS 46138J643

BACKGROUND INFORMATION ON THE FUNDS

The Powershares Exchange-Traded Self-Indexed Fund Trust (the “Trust”) is a management investment company registered under the Investment Company Act of 1940, as amended (the “1940 Act”), consisting of several investment portfolios. This circular relates only to the Funds listed above (each, a “Fund” and together, the “Funds”). The shares of the Fund are referred to herein as “Shares.” Invesco Capital Management LLC (the “Adviser”) is the investment adviser to the Funds.

Invesco BulletShares 2026 High Yield Corporate Bond ETF

The Invesco BulletShares 2026 High Yield Corporate Bond ETF (“BSJQ”) seeks to track the investment results (before fees and expenses) of the Nasdaq BulletShares USD High Yield Corporate Bond 2026 Index (the “BSJQ Index”).

BSJQ generally will invest at least 80% of its total assets in securities that comprise the BSJQ Index. Strictly in accordance with its guidelines and mandated procedures, Invesco Indexing LLC (the “Index Provider”) compiles and maintains the BSJQ Index. The Index Provider is affiliated with the Adviser and Invesco Distributors, Inc., BSJQ’s distributor (the “Distributor”).

The BSJQ Index will typically include between 20-400 securities and is designed to represent the performance of a held-to-maturity portfolio of U.S. dollar-denominated high yield corporate bonds (commonly known as “junk bonds”) with maturities or, in some cases, “effective maturities” in the year 2026 (collectively, “2026 Bonds”). Effective maturity is an assessment of a bond’s likely call date or maturity (if not called by the issuer). With respect to establishing the effective maturity of a bond, if no embedded issuer call option exists for a bond, then the Index Provider deems effective maturity to be the actual year of maturity. If a bond contains an embedded issuer call option, with the first call

date within 13 months of maturity and a par call price, then the Index Provider also deems effective maturity to be the actual year of maturity. In other cases, the Index Provider deems effective maturity to be the actual year of maturity, unless the yield to next call date is less than the yield to maturity, in which case the bond's effective maturity is deemed to be the year of the next call date.

In selecting components for inclusion in the BSJQ Index, the Index Provider begins with an investment universe of U.S. dollar-denominated bonds issued by companies domiciled in the U.S., Canada, Western Europe (as defined by the Index Provider) and Japan. To be eligible for inclusion in the BSJQ Index, bonds must (i) pay a fixed amount of taxable interest; (ii) have a maximum rating of BB+ by S&P Global Ratings, a division of S&P Global Inc. ("S&P") or Fitch Ratings Inc. ("Fitch"), or a maximum rating of Ba1 by Moody's Investors Service, Inc. ("Moody's"); and (iii) have at least \$200 million in face value outstanding (existing bonds in the eligible universe require \$150 million face value outstanding to remain eligible). The eligible universe excludes bonds with a minimum average credit rating of CCC- from S&P, Fitch and Moody's.

The eligible universe may include securities issued in accordance with Rule 144A under the Securities Act of 1933, as amended ("Securities Act"). Additionally, bond types specifically excluded from the eligible universe include: Securities not registered with the SEC, other than Rule 144A securities (including Regulation S securities, private placements, Eurodollar bonds and EuroMTN bonds), retail bonds, floating rate bonds, zero coupon bonds, convertible bonds, bonds cum or ex-warrant, bonds with one cash flow only, new bonds that have already been called, inflation or other index-linked bonds, corporate bonds guaranteed by an agency, national or supranational government, perpetual securities and distressed bonds (defined as bonds whose yield to worst ranks among the top 1% by market value among bonds passing all other eligibility criteria and whose price, including interest that has accrued since the issue of the most recent coupon payment, is below \$80).

2026 Bonds (as established semi-annually, as further described below) in the eligible universe are selected for inclusion in the BSJQ Index and market value weighted, with a 5% limit on individual issuers applied at each monthly rebalance. Prior to the final year of maturity (i.e., 2026), the BSJQ Index is rebalanced monthly, at which time: (i) new bonds that meet the eligibility and maturity (or effective maturity) criteria above are added to the BSJQ Index; (ii) existing 2026 Bonds that no longer meet the eligibility requirements are removed; and (iii) weights of BSJQ Index components are reset to reflect current market value. The Index Provider only reevaluates the effective maturity date of bonds in the investment universe semi-annually, as part of the June and December rebalances, at which time in addition to bonds being added or removed from the BSJQ Index pursuant to the eligibility screening described in the previous sentence, bonds also may be added or removed from the BSJQ Index due to any changes in actual or effective maturity (i.e., they no longer meet the definition of 2026 Bond). If a bond is removed from the BSJQ Index during any rebalance due to changes in price, face value or credit rating, such bond will be excluded for the next three monthly rebalances (including the current rebalance) regardless of any further changes in price, face value or credit rating. During the final year of maturity (i.e., 2026), the BSJQ Index does not rebalance.

Bonds held by BSJQ generally will be held until they mature, are called or no longer meet the eligibility requirements of the BSJQ Index and are removed from the BSJQ Index.

BSJQ primarily invests in 2026 Bonds and BSJQ will terminate on or about December 31, 2026. In connection with the termination of BSJQ, BSJQ will make a cash distribution of its net assets to then-current shareholders after making appropriate provisions for any liabilities of BSJQ. BSJQ does not

seek to distribute any predetermined amount of cash at maturity. In the last twelve months of operation, when the 2026 Bonds held by BSJQ mature, BSJQ's portfolio will transition to cash and cash equivalents, including without limitation U.S. Treasury Bills and investment grade commercial paper. BSJQ will terminate on or about December 31, 2026 without requiring additional approval by the Board of Trustees (the "Board") of Invesco Exchange-Traded Self-Indexed Fund Trust (the "Trust") or Fund shareholders. The Board may change the termination date to an earlier or later date without shareholder approval. BSJQ should not be confused with a target date fund, which has assets that are managed according to a particular glidepath that illustrates how its investment strategy becomes increasingly conservative over time.

BSJQ does not purchase all of the securities in the BSJQ Index; instead, BSJQ utilizes a "sampling" methodology to seek to achieve its investment objective.

Invesco BulletShares 2028 Corporate Bond ETF

The Invesco BulletShares 2028 Corporate Bond ETF ("BSCS") seeks to track the investment results (before fees and expenses) of the Nasdaq BulletShares USD Corporate Bond 2028 Index (the "BSCS Index").

BSCS generally will invest at least 80% of its total assets in securities that comprise the BSCS Index. Strictly in accordance with its guidelines and mandated procedures, the Index Provider compiles and maintains the BSCS Index. The Index Provider is affiliated with the Adviser and the Distributor.

The BSCS Index will typically include between 20-400 securities and is designed to represent the performance of a held-to-maturity portfolio of U.S. dollar-denominated investment grade corporate bonds with maturities or, in some cases, "effective maturities" in the year 2028 (collectively, "2028 Bonds"). Effective maturity is an assessment of a bond's likely call date or maturity (if not called by the issuer). With respect to establishing the effective maturity of a bond, if no embedded issuer call option exists for a bond, then the Index Provider deems effective maturity to be the actual year of maturity. If a bond contains an embedded issuer call option, with the first call date within 13 months of maturity and a par call price, then the Index Provider also deems effective maturity to be the actual year of maturity. In other cases, the Index Provider deems effective maturity to be the actual year of maturity, unless the yield to next call date is less than the yield to maturity, in which case the bond's effective maturity is deemed to be the year of the next call date.

In selecting components for inclusion in the BSCS Index, the Index Provider begins with an investment universe of U.S. dollar-denominated bonds issued by companies domiciled in the U.S., Canada, Western Europe (as defined by the Index Provider) and Japan. To be eligible for inclusion in the BSCS Index, bonds must (i) pay a fixed amount of taxable interest; (ii) be rated at least BBB- by S&P Global Ratings, a division of S&P or Fitch, or at least Baa3 by Moody's; and (iii) have at least \$500 million in face value outstanding (existing bonds in the eligible universe require \$400 million face value outstanding to remain eligible).

Bond types specifically excluded from the eligible universe include: Securities not registered with the SEC (including securities issued under Rule 144A or Securities Act, private placements, Eurodollar bonds and EuroMTN bonds), retail bonds, floating rate bonds, zero coupon bonds, convertible bonds, bonds cum or ex-warrant, bonds with one cash flow only, new bonds that have already been called,

inflation or other index-linked bonds, corporate bonds guaranteed by an agency, national or supranational government, and perpetual securities.

2028 Bonds (as established semi-annually, as further described below) in the eligible universe are selected for inclusion in the BSCS Index and market value weighted, with a 5% limit on individual issuers applied at each monthly rebalance. Prior to the final year of maturity (i.e., 2028), the BSCS Index is rebalanced monthly, at which time: (i) new bonds that meet the eligibility and maturity (or effective maturity) criteria above are added to the BSCS Index; (ii) existing 2028 Bonds that no longer meet the eligibility requirements are removed; and (iii) weights of BSCS Index components are reset to reflect current market value. The Index Provider only reevaluates the effective maturity date of bonds in the investment universe semi-annually, as part of the June and December rebalances, at which time in addition to bonds being added or removed from the BSCS Index pursuant to the eligibility screening described in the previous sentence, bonds also may be added or removed from the BSCS Index due to any changes in actual or effective maturity (i.e., they no longer meet the definition of 2028 Bond). If a bond is removed from the BSCS Index during any rebalance due to changes in face value or credit rating, such bond will be excluded for the next three monthly rebalances (including the current rebalance) regardless of any further changes in face value or credit rating. During the final year of maturity (i.e., 2028), the BSCS Index does not reevaluate effective maturities, but continues to rebalance its constituents (though no new bonds are added) through June.

Bonds held by BSCS generally will be held until they mature, are called or no longer meet the eligibility requirements of the BSCS Index and are removed from the BSCS Index.

BSCS primarily invests in 2028 Bonds and BSCS will terminate on or about December 31, 2028. In connection with the termination of BSCS, BSCS will make a cash distribution of its net assets to then-current shareholders after making appropriate provisions for any liabilities of BSCS. BSCS does not seek to distribute any predetermined amount of cash at maturity. In the last six months of operation, when the 2028 Bonds held by BSCS mature, BSCS's portfolio will transition to cash and cash equivalents, including without limitation U.S. Treasury Bills and investment grade commercial paper. BSCS will terminate on or about December 31, 2028 without requiring additional approval by the Board of Trustees (the "Board") of Invesco Exchange-Traded Self-Indexed Fund Trust (the "Trust") or Fund shareholders. The Board may change the termination date to an earlier or later date without shareholder approval. BSCS should not be confused with a target date fund, which has assets that are managed according to a particular glidepath that illustrates how its investment strategy becomes increasingly conservative over time.

BSCS does not purchase all of the securities in the BSCS Index; instead, BSCS utilizes a "sampling" methodology to seek to achieve its investment objective.

For more information regarding each Fund's investment strategy, please read the prospectus for the Funds.

As described more fully in the Trust's prospectus and Statement of Additional Information ("SAI"), the Funds issue and redeem Shares at net asset value ("NAV") only in large blocks of 150,000 Shares (each block of Shares called a "Creation Unit"). As a practical matter, only broker-dealers or large institutional investors with creation and redemption agreements (called Authorized Participants) can

purchase or redeem these Creation Units. Except when aggregated in Creation Units, the Shares may not be redeemed with the Funds.

Shares are held in book-entry form, which means that no Share certificates are issued. The Depository Trust Company or its nominee is the record owner of all outstanding Shares of the Funds and is recognized as the owner of all Shares for all purposes.

The NAV per Share for each Fund is computed by dividing the value of the net assets of the Fund (i.e., the value of its total assets less total liabilities) by the total number of Shares outstanding. Expenses and fees are accrued daily and taken into account for purposes of determining NAV. The NAV of each Fund is determined each business day after the close of trading (ordinarily 4:00 p.m., Eastern Time or "ET") of the New York Stock Exchange. Any assets or liabilities denominated in currencies other than the U.S. dollar are converted into U.S. dollars at the current market rates on the date of valuation as quoted by one or more sources.

The registration statement for the Funds describes the various fees and expenses for the Funds' Shares. For a more complete description of the Funds and the underlying indexes, visit the Funds' website at www.invesco.com

PURCHASES AND REDEMPTIONS IN CREATION UNIT SIZE

NASDAQ members, BX members and PHLX members and member organizations are hereby informed that procedures for purchases and redemptions of Shares in Creation Unit Size are described in the Trust's prospectus and Statement of Additional Information and that Shares are not individually redeemable but are redeemable only in Creation Unit Size aggregations or multiples thereof.

PRINCIPAL RISKS

Interested persons are referred to the discussion in the prospectus for the Funds of the principal risks of an investment in the Funds. These include tracking error risk (factors causing a Fund's performance to not match the performance of its underlying index), market trading risk (for example, trading halts, trading above or below net asset value), authorized participant concentration risk, call risk, cash transaction risk, changing global fixed-income market conditions risk, declining yield risk, fixed-income securities risk, fluctuation of yield and liquidation amount risk, foreign fixed-income investment risk, index risk, industry concentration risk, issuer-specific changes risk, liquidity risk, market risk, market trading risk, non-correlation risk, non-diversified fund risk, non-investment grade securities risk, rule 144A securities risk, sampling risk, valuation risk, and valuation time risk.

EXCHANGE RULES APPLICABLE TO TRADING IN THE SHARES

Trading in the Shares on NASDAQ is on a UTP basis and is subject to NASDAQ equity trading rules. Trading of the Shares on BX is on a UTP basis and is subject to BX equity trading rules. Trading of the Shares on PHLX's PSX system is on a UTP basis and is subject to PHLX rules.

TRADING HOURS

The values of each index underlying the Shares are disseminated to data vendors every 15 seconds. The Shares will trade on NASDAQ between 7:00 a.m. and 8:00 p.m. ET. The Shares will trade on BX

between 8:00 a.m. and 7:00 p.m. ET. The Shares will trade on PSX between 9:00 a.m. and 5:00 p.m. ET. For trading during each market’s pre-market and post-market sessions, market participants should note that additional risks may exist with respect to trading the Funds during these sessions, when the underlying index’s values, intraday indicative value, or similar value may not be disseminated or calculated.

DISSEMINATION OF FUND DATA

The Consolidated Tape Association will disseminate real time trade and quote information for the Funds to Tape B.

Fund Name	Listing Market	Trading Symbol	IOPV Symbol	NAV Symbol
Invesco BulletShares 2026 High Yield Corporate Bond ETF	NYSE Arca	BSJQ	BSJQ.IV	BSJQ.NV
Invesco Emerging Markets Debt Value ETF	NYSE Arca	BSCS	BSCS.IV	BSCS.NV

SUITABILITY

Trading in the Shares on NASDAQ will be subject to the provisions of NASDAQ Rule 2310. Trading in the Shares on BX will be subject to the provisions of BX Equity Rule 2310. Shares trading on PSX will be subject to the provisions of PHLX Rule 763. Members and member organizations recommending transactions in the Shares to customers should make a determination that the recommendation is suitable for the customer. In addition, members must possess sufficient information to satisfy the “know your customer” obligation that is embedded in both the NASDAQ Conduct Rules and the BX Conduct Rules.

NASDAQ members, BX members and PHLX members and member organizations should also review NASD Notice to Members 03-71 for guidance on trading these products. The Notice reminds members of their obligations to: (1) conduct adequate due diligence to understand the features of the product; (2) perform a reasonable-basis suitability analysis; (3) perform customer-specific suitability analysis in connection with any recommended transactions; (4) provide a balanced disclosure of both the risks and rewards associated with the particular product, especially when selling to retail investors; (5) implement appropriate internal controls; and (6) train registered persons regarding the features, risk and suitability of these products.

TRADING HALTS

NASDAQ will halt trading in the Shares of a Fund in accordance with NASDAQ Rule 4120. BX will halt trading in the Shares of a Fund in accordance with BX Equity Rule 4120. PHLX will halt trading in the Shares of a Fund in accordance with PHLX Rule 3100. The grounds for a halt under these rules include

a halt by the primary market because the intraday indicative value of the Fund, the value of its underlying index, or a similar value are not being disseminated as required, or a halt for other regulatory reasons. In addition, NASDAQ, BX and PHLX will also stop trading the Shares of a Fund if the primary market delists the Fund.

DELIVERY OF A PROSPECTUS

NASDAQ members, BX members and PHLX members and member organizations should be mindful of applicable prospectus delivery requirements under the federal securities laws with respect to transactions in the Funds.

Prospectuses may be obtained through the Funds' website. The prospectus for the Funds does not contain all of the information set forth in the Funds' registration statement (including the exhibits to the registration statement), parts of which have been omitted in accordance with the rules and regulations of the Securities and Exchange Commission ("SEC"). For further information about the Funds, please refer to the registration statement.

In the event that the Funds rely upon an order by the SEC exempting the Shares from certain prospectus delivery requirements under Section 24(d) of the 1940 Act and in the future make available a written product description, NASDAQ Rules 5705 and 5740, BX Equity Rules 4420 and 4421, and PHLX Rule 803 require that members and member organizations, respectively, provide to all purchasers of Shares a written description of the terms and characteristics of such securities, in a form prepared by the Trust for the Funds, no later than the time a confirmation of the first transaction in the Shares is delivered to such purchaser. In addition, members and member organizations shall include such a written description with any sales material relating to the Shares that is provided to customers or the public. Any other written materials provided by members or member organizations to customers or the public making specific reference to the Shares as an investment vehicle must include a statement in substantially the following form: "A circular describing the terms and characteristics of the Shares of the Fund has been prepared by the Trust and is available from your broker. It is recommended that you obtain and review such circular before purchasing Shares of the Fund. In addition, upon request you may obtain from your broker a prospectus for Shares of the Fund."

Any NASDAQ, BX or PHLX member or member organization carrying an omnibus account for a non-member broker-dealer is required to inform such non-member that execution of an order to purchase Shares for such omnibus account will be deemed to constitute agreement by the non-member to make such written description available to its customers on the same terms as are directly applicable to NASDAQ members, BX members and PHLX members or member organizations under this rule.

Upon request of a customer, NASDAQ members, BX members and PHLX members or member organizations shall provide a copy of the prospectus.

EXEMPTIVE, INTERPRETIVE AND NO-ACTION RELIEF UNDER FEDERAL SECURITIES REGULATIONS

The SEC has issued exemptive, interpretive or no-action relief from certain provisions of rules under the Securities Exchange Act of 1934 (the "Act") regarding trading in the above mentioned exchange-traded Funds.

REGULATION M EXEMPTIONS

Generally, Rules 101 and 102 of Regulation M prohibit any “distribution participant” and its “affiliated purchasers” from bidding for, purchasing, or attempting to induce any person to bid for or purchase any security which is the subject of a distribution until after the applicable restricted period, except as specifically permitted in Regulation M. The provisions of the Rules apply to underwriters, prospective underwriters, brokers, dealers, and other persons who have agreed to participate or are participating in a distribution of securities.

The SEC has granted an exemption from Rule 101 under Regulation M to permit persons participating in a distribution of shares of the above-mentioned Funds to engage in secondary market transactions in such shares during their participation in such a distribution. In addition, the SEC has granted relief under Regulation M to permit persons who may be deemed to be participating in the distribution of Shares of the above-mentioned Funds (i) to purchase securities for the purpose of purchasing Creation Unit Aggregations of Fund Shares and (ii) to tender securities for redemption in Creation Unit Aggregations. Further, the SEC has clarified that the tender of Fund Shares to the Funds for redemption does not constitute a bid for or purchase of any of the Funds’ securities during the restricted period of Rule 101. The SEC has also granted an exemption pursuant to paragraph (e) of Rule 102 under Regulation M to allow the redemption of Fund Shares in Creation Unit Aggregations during the continuous offering of Shares.

CUSTOMER CONFIRMATIONS FOR CREATION OR REDEMPTION OF FUND SHARES (SEC RULE 10B-10)

Broker-dealers who handle purchases or redemptions of Fund Shares in Creation Unit size for customers will be permitted to provide such customers with a statement of the number of Creation Unit Aggregations created or redeemed without providing a statement of the identity, number and price of shares of the individual securities tendered to a Fund for purposes of purchasing Creation Unit Aggregations (“Deposit Securities”) or the identity, number and price of shares to be delivered by the Trust for the Fund to the redeeming holder (“Redemption Securities”). The composition of the securities required to be tendered to the Fund for creation purposes and of the securities to be delivered on redemption will be disseminated each business day and will be applicable to requests for creations or redemption, as the case may be, on that day. This exemptive relief under Rule 10b-10 with respect to creations and redemptions is subject to the following conditions:

- 1) Confirmations to customers engaging in creations or redemptions must state that all information required by Rule 10b-10 will be provided upon request;
- 2) Any such request by a customer for information required by Rule 10b-10 will be filed in a timely manner, in accordance with Rule 10b-10(c);
- 3) Except for the identity, number and price of shares of the component securities of the Deposit Securities and Redemption Securities, as described above, confirmations to customers must disclose all other information required by Rule 10b-10(a).

SEC RULE 14E-5

An exemption from Rule 14e-5 has been granted to permit any person acting as a dealer-manager of a tender offer for a component security of a Fund (1) to redeem Fund Shares in Creation Unit Aggregations from the issuer that may include a security subject to such tender offer and (2) to purchase Fund Shares during such tender offer. In addition, a no-action position has been taken under Rule 14e-5 if a broker-dealer acting as a dealer-manager of a tender offer for a security of a Fund purchases or arranges to purchase such securities in the secondary market for the purpose of tendering such securities to purchase one or more Creation Unit Aggregations of Shares, if made in conformance with the following:

- 1) such bids or purchases are effected in the ordinary course of business, in connection with a basket of 20 or more securities in which any security that is the subject of a distribution, or any reference security, does not comprise more than 5% of the value of the basket purchased; or
- 2) purchases are effected as adjustments to such basket in the ordinary course of business as a result of a change in the composition of the underlying index; and
- 3) such bids or purchases are not effected for the purpose of facilitating such tender offer.

Section 11(d)(1); SEC Rules 11d1-1 and 11d1-2

Section 11(d)(1) of the Act generally prohibits a person who is both a broker and a dealer from effecting any transaction in which the broker-dealer extends credit to a customer on any security which was part of a new issue in the distribution of which he participated as a member of a selling syndicate or group within thirty days prior to such transaction. The SEC has clarified that Section 11(d)(1) does not apply to broker-dealers that are not Authorized Participants (and, therefore, do not create Creation Unit Aggregations) that engage in both proprietary and customer transactions in Shares of the Fund in the secondary market, and for broker-dealer Authorized Participants that engage in creations of Creation Unit Aggregations. This relief is subject to specific conditions, including the condition that such broker-dealer (whether or not an Authorized Participant) does not, directly or indirectly, receive from the fund complex any payment, compensation or other economic incentive to promote or sell the Shares of a Fund to persons outside the fund complex, other than non-cash compensation permitted under NASD Rule 2830(l)(5)(A), (B) or (C). (See [letter](#) from Catherine McGuire, Chief Counsel, SEC Division of Market Regulation, to Securities Industry Association, Derivative Products Committee, dated November 21, 2005.) The SEC also has taken a no-action position under Section 11(d)(1) of the Act that broker-dealers may treat Shares of a Fund, for purposes of Rule 11d1-2, as "securities issued by a registered open-end investment company as defined in the Investment Company Act" and thereby extend credit or maintain or arrange for the extension or maintenance of credit on Shares that have been owned by the persons to whom credit is provided for more than 30 days, in reliance on the exemption contained in the rule.

SEC RULE 15C1-5 AND 15C1-6

The SEC has taken a no-action position with respect to Rule 15c1-5 and Rule 15c1-6 as to the required disclosure of control by a broker or dealer with respect to creations and redemptions of Fund Shares and secondary market transactions therein. (See [letter](#) from Catherine McGuire, Chief

Counsel, SEC Division of Market Regulation, to Securities Industry Association, Derivative Products Committee, dated November 21, 2005.)

This Information Circular is not a statutory prospectus. NASDAQ members, BX members and PHLX members and member organizations should consult the Funds' prospectus and/or the Funds' website for relevant information.
